Type of Groups to be covered

This plan is primarily targeted to homogeneous groups namely customers who have taken loan / credit from banks / financial institutions and other lending agencies providing different types of loans.

Benefits

1. Plan Options

Two type of Plan options are available under The Plan:

- a. Reducing Cover:** Sum Assured reduces on a monthly basis during the term of the Coverage. The reduction in Sum Assured pattern during the Coverage Term is fixed for the member at the time of issuance of Certificate of Insurance (COI). The Company's liability under the Coverage shall be limited to the extent of Sum Assured as applicable at the time of Death/ Accidental Death/ TI/ CI/ ATPD (basis chosen Coverage Option) and will be as per the defined schedule specified at the outset in the COI. The amount payable will not be lower than the minimum Sum Assured under the Plan. The Company shall not be liable for any shortfall of such benefit over the loan outstanding. This Plan Option shall be offered where Initial Sum Assured is greater than or equal to ₹1,00,000.
- b. Level Cover:** Sum Assured remains constant throughout the Coverage Term and is equal to the Initial Sum Assured, irrespective of the outstanding loan amount. This Plan Option can only be offered for interest only loans. However, where Initial Sum Assured is below ₹1,00,000, only Level Cover Option will be offered even if the loan is not an interest only loan. If the Premium payment option is chosen as Regular Premium then, only Level Cover option is available.

The "Initial Sum Assured" will be the amount of insurance coverage amount opted for by the Member at inception.

2. Moratorium Options

The Master Policyholder has the option to choose one or both of the Moratorium Options where the insurance coverage during the moratorium period may be:

1. **Constant** (applicable wherein interest is payable during the moratorium period): The initial Sum Assured shall remain unchanged up to the end of moratorium period, and thereafter it shall reduce on a monthly basis as specified in the COI issued to the Member.
2. **Increasing** (applicable wherein interest is not payable during the moratorium period): The initial Sum Assured shall increase to the extent of the outstanding interest during the moratorium period, and thereafter it shall reduce on monthly basis as specified in the COI issued to the Member.

The Moratorium Option will be subject to following conditions:

- This feature is allowed only with the Reducing Cover option.
- For loans with a moratorium period, the Coverage Term will also include the moratorium period.
- Minimum moratorium period allowed is 6 months and the maximum is 7 years. The moratorium period will be available in multiple of 6 months.

- The premium for the insurance coverage will be payable from the inception of the insurance coverage, irrespective of whether loan EMI has started or not, due to the moratorium period.
