HOW IS MY FAMILY PROTECTED IN CASE OF AN UNFORTUNATE EVENT?

In case of death of the Life Assured, the policyholder/nominee (person nominated to receive the benefits under this plan) will receive higher of the Fund Value or the Sum Assured (less applicable partial withdrawals)². In case of death of Life Assured when he/she is a minor, death benefit would be paid to the policyholder. The death benefit under all circumstances will not be less than 105% of the single premium except in case of suicide¹⁶ in first policy year.

WHAT ARE THE ADVANTAGES OF SHUBH LABH?

The plan offers many features and flexibilities as explained below:

a) **Auto Funds Rebalancing³:** If you wish to maintain allocation of your investments in a specific proportion across funds, irrespective of market movements, you can do so through Auto Funds Rebalancing. Once opted, after every 3 policy months, it automatically rebalances the allocation of your investments in various funds to the allocation proportions chosen by you.

For example, if you wish to stay invested in the ratio of 50 : 25 : 25 in Equity II Fund, Balanced Plus Fund and Debt Plus Fund; then at the end of every 3 policy months from the date of commencement of Auto Funds Rebalancing, your total Fund Value shall be rebalanced as per the chosen ratio of 50 : 25 : 25 in Equity II Fund, Balanced Plus Fund and Debt Plus Fund.

b) Safety Switch Option⁴: As your policy nears maturity, you may want to avoid market movements and safeguard your funds. The Safety Switch Option enables you to move your funds systematically to a relatively low risk Liquid Fund in the last four policy years. The following table shows the proportion of investment in Liquid and other funds, for the last four policy years:

Beginning of...	Allocation in Liquid Fund	Allocation in Funds other than Liquid Fund
Fourth last policy year	30%	70%
Third last policy year	60%	40%
Second last policy year	90%	10%
Last policy year	100%	0%

- c) Loyalty Additions:** Your Fund Value will be enhanced by Loyalty Additions from 5th policy year onwards, provided you have not surrendered your policy. The rate of Loyalty Additions is 0.06% per month of Fund Value. The Loyalty Additions will be added at end of each policy month, starting from 49th policy month till the end of the policy term.
- d) Partial Withdrawal⁵:** You can make partial withdrawals for any unforeseen contingency, from 6th policy year onwards. The minimum amount that you can withdraw is ₹10,000 and the maximum is such that the Fund Value after withdrawal is at least equal to 25% of the single premium.
- For example, if your single premium is ₹10 lacs and the Fund Value at the time of withdrawal is ₹12 lacs, you can withdraw up to ₹9.5 lacs (₹12 lacs – ₹9.5lacs = ₹2.5 lacs (25% x ₹10lacs)).
- e) Fund Switching:** You can switch some or all of your investments from one fund to another, any number of times at zero charge. The minimum amount that you can switch is ₹10,000.
- f) Change in Sum Assured⁶:** You can increase or decrease your Sum Assured from the 6th policy year onwards. This facility is available once in every policy year subject to maximum of 3 times during the policy term.
- g) Settlement Option⁷:** You can opt for settlement option any time at least 3 months before the end of the policy term. You will receive your money in installments as per the frequency chosen by you over a maximum period of 5 years. There will not be any Life Cover during this period. Units from the applicable funds will be cancelled at the time of installment payouts. Only Fund Management charges shall be deducted as applicable on the remaining funds. There are no charges other than Fund Management charges during the settlement period.
- h) Tax Benefit⁸:** You can avail tax benefits on premiums paid and the benefit paid out under the policy, subject to the applicable provisions of Section 80C and Section 10(10D) respectively, of the Income Tax Act, 1961.

WHAT WILL I RECEIVE AT MATURITY?

Your policy will mature at the end of the policy term as chosen by you at inception. You will receive the Fund Value based on the prevailing NAVs at maturity.

Illustrative Example

Mr. Bahri, age 45 chooses to pay a single premium of ₹10,00,000/- as shown below. He opts for a Sum Assured of 110% of the single premium. The table below shows maturity values assuming annual gross investment return of 4%^{*} and 8%^{*} with 100% investment in Equity II Fund.

Single Premium ₹	Sum Assured ₹	Assuming Gross Investment Return for a 15 year Term (₹)	
		4% [*]	8% [*]
10,00,000	11,00,000	14,76,116	26,09,962

^{*}The assumed rates of return (4% p.a. or 8% p.a.) shown in the above illustrative example are not guaranteed and they are not the upper or lower limits of what you might get back as the value of your policy depends on a number of factors including future investment performance. The fund values shown in the above illustrative example are after deduction of all applicable charges and Goods and Services Tax & applicable cess (es)/levy, if any, as applicable (@18.00%).

WHAT HAPPENS IN CASE THE POLICY IS SURRENDERED?

If the policy is surrendered within the first 5 policy years, the surrender value (Fund Value less applicable surrender charges) will be transferred to the discontinued policy fund and earn a minimum guaranteed interest rate of 4.00% p.a. It will be paid to you only after completion of the 5th policy year. If surrender request is received after completion of 5 policy years, the Fund Value will be paid immediately and the policy will be terminated.
